## FEATURING

### Turmeric

Turmeric has been valued for centuries in traditional Chinese and Ayurvedic medicines. In recent times, Turmeric's active constituents, curcuminoids, have undergone extensive research. These powerful compounds support healthy inflammatory response and immune system function, provide antioxidant activity, and protect against the genetic effects of lipid peroxidation. Botanical Treasures® features Curcumin C3 Complex®, a potent extract of Turmeric standardized to 95% curcuminoids.\*

### Green Tea

Green Tea extract, which has synergistic effects with Turmeric, is highly prized for its well-researched catechins, including epigallocatechin-3-gallate (EGCG) that exhibit significant effects on immune system response and antioxidant activity. This herbal extract maintains and supports healthy cells and provides protection against environmental stressors.\*

### Quercetin

A flavonoid found in high levels in apples and onions, Quercetin promotes antioxidant activity. Additionally it has displayed the ability to optimize cellular health and the healthy removal of damaged cells from the body.\*

### Grape Seed and Skin

Grape Seed extract naturally contains anthocyanidins, proanthocyanidins and oligoproanthocyanidins (OPCs). These unique compounds cross the blood-brain barrier and provide activity as free radical scavengers in the brain and in the whole body. They promote healthy blood vessel integrity, revitalize connective tissue and support an optimal immune and inflammatory response. Grape Skin extract contains the potent compound resveratrol, which is also found in red wine. Resveratrol is thought to be responsible for red wine's effects in promoting heart health.\*

### Holy Basil and Rosemary

Holy Basil works together with Rosemary to promote a wide spectrum of natural antioxidant activity in the body and reduce free radical damage that occurs with aging. Holy Basil encourages a healthy inflammatory response function and optimizes adrenal gland activity. Rosemary has been used for centuries as a tonic and mild stimulant to support digestion and to promote nervous system health.\*
