

Cho-Less®

Promotes Healthy Lipid Metabolism*

- Encourages proper blood circulation and viscosity*
- Modulates cardio-related inflammatory response*
- Supports cardiovascular health*

Cho-Less® promotes cardiovascular health with a strong emphasis on healthy lipid metabolism. Red Yeast Rice has been combined with cardio-specific nutrients and botanicals to promote healthy blood circulation, improve vascular integrity, encourage healthy lipid and triglyceride balance, and normalize cardio-related inflammatory response. Together with a proper diet and regular exercise, Cho-Less® can play a major role in supporting the body's ability to maintain a strong heart and healthy cholesterol levels already in a normal range.*

| Red Yeast Rice (<i>Monascus purpureus</i>) (Organic) | 505 mg | * |
| Artichoke (<i>Cynara scolymus</i> L) Leaf Ext. 5% Cynarin Derivatives | 100 mg | * |
| Pantethine | 100 mg | * |
| Guggul (<i>Commiphora mukul</i>) Gum Ext. 7.5% Guggulsterones | 95 mg | * |
| Beta-Sitosterol (from plant sterols) | 90 mg | * |
| Policosanol (from rice bran wax) | 20 mg | * |

* Daily Value Not Established

Other Ingredients: Hydroxypropyl Methylcellulose, Silica, Microcrystalline Cellulose, Maltodextrin, Magnesium Carbonate, Magnesium Stearate.

DOES NOT CONTAIN: Wheat, gluten, soy, milk, eggs, fish, crustacean shellfish, tree nuts, peanuts

Available in 90 capsules

SUGGESTED USE: 2 capsules daily or as directed by your healthcare practitioner

FEATURING

Niacin

Niacin supports healthy blood fat levels and circulation through the heart vessels. It was selected as the "ingredient of choice" for maintaining cholesterol levels already in a healthy range by the Expert Panel of the National Cholesterol Education Program.*

Red Yeast Rice

Red Yeast Rice, used in China for over two thousand years to promote healthy heart function, also helps to maintain healthy cholesterol levels already in a normal range. Our high-quality extract contains monacolins, which are a family of naturally-occurring compounds that promote cardiovascular health.*

Artichoke Leaf Extract

Artichoke Leaf, a favorite herb in European and American traditions, contains a variety of natural constituents, including chlorogenic acid and cynarin, which offer strong antioxidant protection. Artichoke Leaf extract has been shown to neutralize free radicals and support healthy levels of LDL and HDL cholesterol already in a normal range.*

Pantethine

Pantethine, the biologically active form of Vitamin B5, helps to support a healthy blood fatty acid profile already in a normal range. Pantethine also supports balanced blood sugar levels that are already in a normal range, further contributing to this formula's heart protective functions.*

Guggul

Guggul, a plant resin from the Myrrh tree (*Commiphora mukul*), has been valued and used for thousands of years in Ayurvedic and Chinese medicines. It helps optimize blood fats by maintaining healthy cholesterol and triglyceride levels already in a normal range. Guggulipid extract is standardized for 7.5% Guggulsterones E and Z, which are considered to be the most active constituents.*

Policosanol

Policosanol, a natural extract of plant waxes, supports the healthy flow and viscosity of blood to further promote heart health. This naturally-occurring compound found in whole sugarcane, yams and beeswax, also promotes the healthy metabolism of fat and protects the body from oxidative effects.*
