

ImmuCare®

Builds Healthy Immune System Defenses*

- Promotes healthy immune response*
- Nourishes bone marrow and builds blood*
- Supports kidney, spleen, and lung processes*
- Encourages endocrine health*

ImmuCare® is a concentrated immune system tonic designed to build, nourish and invigorate the blood while supporting healthy function of the immune, digestive and endocrine systems. By promoting blood circulation and removing blood stasis, the herbs in ImmuCare I® promote detoxification and increase immune surveillance. ImmuCare I® helps the body adapt by regulating the responses of the adrenal cortex, thereby increasing the production and life-span of the white and red blood cells. It also regulates the release of immune-modulating interferons, interleukins, T-cells and immuno-globulins.*

New bottle rollout expected November 2021

Supplement Facts

Serving Size: 2 capsules
Servings Per Container: 90

	Amount Per Serving	%Daily Value
<i>Astragalus membranaceus</i> Root Ext.	180 mg	*

DOES NOT CONTAIN: Wheat, gluten, soy, milk, eggs, fish, crustacean shellfish, tree nuts, peanuts

Available in 180 capsules

SUGGESTED USE: 2 capsules daily or as directed by your healthcare practitioner

FEATURING

Astragalus and Dong Quai

Together, Astragalus and Dong Quai comprise one of the most important formulas in Traditional Chinese medicine (TCM) used to nourish blood and energy. Astragalus is used in TCM to increase overall vitality and support the immune system. Dong Quai helps build blood and nourishes many vital systems in the body. It is also used to support healthy lungs.*

Millettia

Millettia supports a healthy supply of red blood cells and promotes optimal function of the bone marrow. This is a vital herb in TCM used to nourish and invigorate the blood and circulatory system and to break up stagnations.*

Cordyceps

Cordyceps, considered as valuable as Ginseng as a restorative herbal tonic, is prized in TCM to nourish the lungs and kidneys. It contains a wide array of compounds that exert immune-restorative and free-radical-scavenging actions on the body. Cordyceps helps protect the body when it is subject to environmental challenges.*

Atractylodes

Atractylodes is one of the premier herbs in TCM to tonify the spleen and support its functions. It is usually combined with Astragalus to maintain immune system health and optimal energy levels in the body.*

Echinacea

One of the most well-researched and well-recognized herbs for promoting healthy immune system function, Echinacea enhances the protective and supportive actions of ImmuCare I®. Echinacea optimizes lymphatic function, increases antibody function and supports the body's natural healing function.*

Cat's Claw

Cat's Claw, from the Peruvian Amazon, is used in South American folk medicine to support overall health. The active compounds in this herbal extract include pentacyclic alkaloids, along with natural steroids, sterols and flavonoids that function together to promote a balanced level of healthy intestinal flora and a revitalized state of health and well-being. Balanced intestinal flora (the good bacteria) represents a major component of healthy immune system function.*
