

Peps-Aid™

Relieves Digestive Discomfort*

- Neutralizes excess stomach acidity*
- Promotes healthy stomach, liver, gall bladder function*
- Calms smooth muscle spasms of the gastrointestinal tract*
- Supports digestion and aids nutrient assimilation*
- Promotes healthy microbial balance*

Providing fast, therapeutic relief for a wide range of digestive discomforts, Natura Health Products® Peps-Aid™ offers a modern revision of a classic herbal formula for promoting healthy gastrointestinal function and comfort. Most of the herbs in Peps-Aid™ encourage healthy inflammatory response and microbial balance to support healthy gastric and intestinal tissues. Both Chamomile and Lemon Balm soothe nervous system related digestive upsets. The trio of Peppermint, Fennel, and Ginger essential oils provide powerful multi-faceted digestive support. Potassium bicarbonate offers stable neutralizing action for excess stomach acids. A medicine cabinet staple, this formula is beneficial for chronic or acute conditions.

FEATURING

Turkey Rhubarb (*Rheum palmatum or officinale*)

One of the most important medicinal herbs throughout Asia, Turkey Rhubarb is noted for its astringent and tonic actions that promote healthy gastric secretions and facilitate digestive processes. Turkey Rhubarb supports the natural healing processes of gastrointestinal tissues, provides antioxidant activity, and promotes healthy inflammatory response and microbial balance in the gut.

Cinnamon (*Cinnamomum cassia*)

In many cultures, Cinnamon is traditionally utilized for promoting healthy digestion. Herbalists value it for its warming, astringent, and carminative properties. Cinnamon has been shown to support healthy blood sugar metabolism and promote thermogenesis. Cinnamon demonstrates antioxidant activity, encourages healthy inflammatory response, and promotes cellular health.

German Chamomile (*Matricaria recutita*)

Chamomile is a renowned herbal remedy well-loved for its ability to calm and soothe digestive and nervous upsets. Mildly astringent, chamomile supports gastrointestinal health, provides antioxidant activity, encourages healthy inflammatory response, and promotes microbial balance in the gut.

Lemon Balm (*Melissa officinalis*)

Lemon Balm is notable for its carminative and calming actions in digestive conditions. It is traditionally used to relax intestinal muscles and to benefit indigestion and nausea, and is noted to be especially effective when associated with nervous-related upsets.

Goldenseal (*Hydrastis canadensis*)

Goldenseal was a very important medicine in Native American traditions, valued as a digestive bitter tonic to relieve dyspepsia (sour stomach). Early American herbalists and the Eclectic Physicians utilized Goldenseal to improve appetite, relieve digestive discomfort, and encourage healthy liver and gall bladder function.

Peppermint, Fennel, and Ginger Essential Oils

Peppermint, Fennel, and Ginger promote healthy inflammatory response and microbial balance in the gut, and they also all provide antioxidant activity.

Our specialty ingredients are certified by analysis for purity and potency, and this product is manufactured under current Good Manufacturing Practices (cGMP).
