

# Quercetin Plus

## Food-Grown Vitamin C, Nettle, and Bromelain

- Provides antioxidant activity\*
- Promotes cellular health\*
- Modulates a healthy immune response\*
- Supports cardiovascular health\*

Quercetin Plus is a synergistic blend of flavonoids, botanicals, and nutrient cofactors designed to support immune system balance and promote the body's natural response to seasonal and environmental factors. It provides potent antioxidant activity to help maintain healthy cellular function. Quercetin supports a healthy immune response through its influence on normal physiological pathways. It also promotes cardiovascular health via multiple mechanisms that support normal function. Nettle leaf, vitamin C, and bromelain work together to enhance the overall supportive actions of the formula.\*

## Supplement Facts

Serving Size: 1 capsule  
Servings Per Container: 90

	Amount Per Serving	% Daily Value
Vitamin C ( <i>Citrus spp.</i> Fruit) BIOGROWN® ◀	50 mg	56%
Quercetin (as Quercetin Dihydrate from <i>Sophora japonica</i> Flower)	350 mg	*
Nettle ( <i>Urtica dioica</i> ) Leaf	50 mg	*
Bromelain 2400 GDU/g (from Pineapple ( <i>Ananas comosus</i> ) Fruit/Stem Ext.)	50 mg	*

\* Daily Value Not Established

Other Ingredients: Hydroxypropyl Methylcellulose, Magnesium Stearate, Silica.  
◀ Naturized® Food-Grown Nutrient

DOES NOT CONTAIN: Wheat, soy, milk, eggs, fish, crustacean shellfish, tree nuts, peanut, sesame

Available in 90 capsules

SUGGESTED USE: 1 capsule, 2 times daily or as directed by your healthcare practitioner

## QUERCETIN

### Foundational Wellness

Quercetin, a prominent member of the vast polyphenol family, offers a diverse range of health benefits. It provides potent antioxidant activity with the ability to scavenge free radicals and inhibit lipid peroxidation. These actions contribute to quercetin's ability to promote healthy cellular function. Quercetin supports cardiovascular health through its ability to benefit endothelial function, support healthy blood pressure levels already in a normal range, and promote healthy lipid metabolism. Like many polyphenolic compounds, quercetin is found to support healthy neurological function.\*

### Seasonal and Environmental Challenges

Quercetin, a flavonoid found in various foods, supports healthy cytokine signalling pathways and a balanced inflammatory response. It helps maintain normal immune system activity in response to seasonal and environmental challenges. Quercetin promotes overall wellness by supporting the body's natural processes for responding to common environmental factors.\*

## FEATURING

### Vitamin C (Naturized®)

Vitamin C is a water-soluble vitamin and essential cofactor in the body's normal histamine metabolism processes. Widely known for its antioxidant capacity, it works synergistically with quercetin to support immune health and oxidative stress resilience.\* Naturized® nutrients are formulated to emulate the nutrient profile found in whole foods, while providing concentrated levels of key vitamins or minerals. Delivered in a natural food matrix, these nutrients are presented in a form the body readily recognizes and utilizes—supporting optimal absorption, bioavailability, and functional activity in everyday wellness.\*

### Nettle Leaf (*Urtica dioica*)

Nettle leaf has a long history of traditional use and is valued for its nutrient content. Freeze-dried nettle leaf provides natural compounds that support the body's normal processes for responding to seasonal and environmental factors. It promotes healthy respiratory function, overall wellness, and tissue tone.\*

### Bromelain (*Ananas comosus*)

Bromelain, a proteolytic enzyme derived from pineapple, promotes tissue homeostasis and nutrient absorption. It exerts a modulating influence on normal immune system activity and supports a healthy inflammatory response.\*

Our specialty ingredients are certified by analysis for purity and potency, and this product is manufactured under current Good Manufacturing Practices (cGMP).
