

Throat & Gland™

Supports Lymphatic System & Immune Response*

- Supports throat tissue health*
- Encourages healthy immune response*
- Promotes healthy microbial balance*
- Supports lymphatic drainage*

Throat & Gland™ is a potent herbal throat spray that provides support when exposed to environmental challenges during the changing seasons. It is designed to support the immune and lymphatic system, particularly when it is used prior to, or at the onset of feelings of discomfort. Throat & Gland™ can be used for both symptomatic relief in acute situations and for general immune system support.*

FEATURING

Propolis

Propolis is a natural healing agent that bees make from plant resins. It has been used traditionally to protect the body from environmental challenges. Flavonoids, one of the many natural compounds found in Propolis, help promote a strong and healthy immune system response.*

Red Root

Red root is used in herbal traditions to strengthen the structure of the lymph system, improve the blood's ability to flow and to stimulate the cleansing cycle needed to heal. Red root is useful to promote lymph fluid drainage and acts as a powerful supporter of healthy lymph flow.*

Echinacea

Echinacea enhances the immune protective and supportive actions of Throat & Gland™ by optimizing lymphatic function and improving the body's ability to heal. This herb has been valued for centuries in American and European traditions. In modern times, it is one of the most well-researched and well-recognized herbs for promoting healthy immune system function.*

Wild Indigo

Wild Indigo herbal extract is particularly effective at promoting healthy immune function within the throat and mouth area. It promotes a comfortable and balanced environment in the mucous membranes of the throat and mouth.*

Usnea

Herbalists in America and China value Usnea for its powerful ability to promote healthy immune system function. This unique lichen, known as Old Man's Beard in herbal traditions, grows on many trees in the forests of the southeastern and the Pacific Northwest of America.*

Licorice

Known for its soothing qualities, Licorice has been used for thousands of years by herbalists in many cultures. Licorice acts to soothe the respiratory system and to encourage healthy inflammatory response.*

Lomatium

Lomatium is a highly resinous and aromatic root that contains key constituents which function synergistically to support the body's natural resistance to environmental challenges. American herbalists have used Lomatium root for centuries for these very abilities.*
